

(BrMIS)

Barangay Records Management and Information System

A comprehensive on-premise application to effectively organize , evaluate, and manage information in all of the organizational aspects of the barangay with a modern corporate style!

An invaluable tool used for coordination, control, analysis processing and visualization of information.

The BrMIS is built to initiate our goal in helping create Smart Cities across the country.

LaQuest believes that good governance begins from its smallest unit of administration that is why we built and progressively develop a robust system that will allow our barangay leaders and officers to engage more with their residents, obtain accurate data and produce trustworthy reports to better understand real conditions on the ground.
